**Nicholas W Mattise**

Email:
nmattise@umd.edu

Nicholas W. Mattise is a research assistant with the Cluster for Sustainability in the Built Environment (CITY@UMD). CITY@UMD is in the Mechanical Engineering Department at the University of Maryland, College Park. With CITY@UMD, Nicholas's focus is on the creation and dissemination of web based tools and technologies to model buildings in their built environment. Nicholas's expertise spans building energy modeling with OpenStudio/EnergyPlus to web development utilizing the MEAN stack (MongoDB, ExpressJS, AngularJS, and Node.JS). In the spring of 2014 Nicholas completed a Bachelors of Architectural Engineering (B.A.E), with minors in Information Sciences and Technology (IST) and Architectural Studies, at The Pennsylvania State University.
